To Whom It May Concern:

My husband and I have had the good fortune and pleasure of working with Bill Vermeulen and Sunrise Landscape on the installation and ongoing maintenance of the landscape at our home in Orange. We enthusiastically recommend him and his company for any landscape project for which he might apply.

We found Bill to be one of the most pleasant and knowledgeable professionals that we have ever worked with. He implemented our very large project in an organized, efficient and thorough manner. We could trust that every phase of our project would be completed on time and as outlined in our plans. Bill was extremely responsive to our need to make some alterations and very patient and understanding when I had difficulty making decisions.

Bill personally monitored the installation of lighting, irrigation and the transplanting of existing plants, as well as the installation of hundreds of new trees and plants. During most of the work, Bill was on site and working with the crew to make sure every detail was correct. He was usually the first person to arrive at the job and the last to leave. We could always count on Bill's crew to leave the site clean and orderly at the end of each day.

Bill is a true professional and he takes great pride in his work. It quickly became obvious to us that he cares about his customers and ultimately, their satisfaction in the work that he and Sunrise Landscape complete for them. We could not be more pleased with how our landscape project was implemented and now maintained by Bill and his company.

Again, we are pleased to recommend Bill and his company, Sunrise Landscape to anyone who wants a project implemented in a professional manner.

We would not mind being contacted so that we could elaborate more on our very positive experience with Bill Vermeulen and Sunrise Landscape.

Sincerely,

Carolyn Breeden
